### To The New Sheriff In Town

Dear Editor,

Thank you for giving us that detailed background information on the new sheriff in town.

I take this opportunity to also welcome **Sr. Supt. Chester Williams** to Cayo and to wish him all the very best.

The crime situation during his tenure in the community will no doubt be the prime indicator of his effectiveness.

There are however other important areas of policing which will likewise determine the kind of Commanding Officer he turns out to be.

Primary among such indicators is the level of discipline displayed by those under his command being incidents of police brutality and the manner in which those under his command conduct themselves when in public of which the consumption of alcoholic beverages whilst in uniform and the regular practice of policemen and women walking the streets when not properly attired, readily comes to mind.

In terms of not being properly attired I am particularly referring to those policemen and women walking in public without their head dress.

Like I always say, ***"Show me a policeman walking in public without his or her cap and I will show you an indiscipline character parading as a law enforcement officer"***.

There are some policemen who erroneously believe that they look cute walking in public without their cap but for those of

us with uniformed group training, these improperly attired characters are nothing more than a positive manifestation of indiscipline. Unfortunately there are many of these characters in our community.

Take a poll and you will find out that these are the ones who will quickly take a bribe. They are the ones who will drink in uniform, report to work drunk, drink on the job, routinely absent themselves from duty, engage in brutality among other indisciplined behavior.

They have no respect for themselves, for their superiors, for the uniform they wear or for the institution they represent.

There is a policeman at the San Ignacio Station from whom it would be worthwhile for his colleagues to take example. This policeman, I am told, is the one in charge of the prisoners. He is always neatly dressed and obviously takes much pride in the uniform and the institution he represents. Unlike the vast majority of policemen in San Ignacio, including ranking officers, I am yet to see this policeman walking the streets without his cap.

I have heard quite a lot about Mr. Williams. He now has a great opportunity to prove his worth. He appears to be well intentioned and so I wish him well.

The conduct of those under his command will be the gauge by which his performance and effectiveness is measured.

### Four Year later And Yet Nothing Done

Dear Editor,

We hear a lot about the danger of Dengue, Malaria and other diseases during this very rainy rainy season and people are advised to be careful not to have breeding grounds for mosquitoes in their backyards, etc.

So I wonder why a really important issue has not been addressed for over 4 years now. We have a culvert under our dirt road in front of the house in San Jorge/Santa Familia which has been broken for several years, most probably due to the heavy trucks crossing when the bridge and ferry to Spanish Lookout are under water/cannot be operated.

We talked to the village

chairman(s), the area representative and the public works deptment in Santa Elena and Belmopan, they have all seen the situation, seemed concerned, made promises ... and were never heard from again.

Phone calls yield replies like: ***"we don't have any machines right now"***. ***"We don't have the money"*** and so on.

We have been trying since 2006 to have it fixed and nothing ever happens, just talk. We even offered to help and do some of the work ourselves, but still ... nothing.

In the meantime, during heavy rains we have a lake on the roadside, which backs up into our front yard and now also floods the

driveway, but that is just a small problem compared to the health risk this huge stagnant pool of water poses to residents in the community.

Not only is it a large breeding ground for mosquitoes, but it is also a run-off from a cow pasture. I see children and dogs playing in it and I am afraid the children will get sick from the dirty water, which surely is loaded with bacteria, surely salmonella, maybe even the ones that cause typhoid.

Just last week Ministry of Works added more dirt to the road to make it higher, which now makes it impossible for the water to run off over the road, which it used to do after it reached a certain height, so the lake just

the red Geo Prizm car he was driving as it was experiencing mechanical problems and he was on the way to get assistance to fix the problem.

Parham was immediately detained and, in the process of the investigation, he told the police that he was staying at the Kiss Hotel in Belmopan.

Police visited the hotel located on Barton Creek Street in the Reservoir Extension Area, Belmopan where it was confirmed that he was indeed a guest. A search of the room he occupied revealed nothing incriminating.

The car, with license plates CY-C-29620, was towed into the compound of the Police Training Academy in Belmopan where it was thoroughly searched. The search resulted in the discovery of cash and assorted pieces of jewelry stashed in a compartment located between the two front seats. The car, the cash and the jewelry were transported to Benque Viejo Police station where the investigation will continue.

The arrest of **Owen Alexander Parham** resulted from a reported burglary in Benque Viejo Town when acting upon information received, Benque Viejo police visited the mansion of **Eduardo "Eddy" Vega**, 57, Belizean Businessman residing at the corner of Church and Victoria Streets, Benque Viejo Town where the Belizean watchman **Heriberto Santos**, 44 of a Border Road address in Benque Viejo Town reported that at around 12:45 am on Sunday,

gets larger and deeper..

People are getting sick from Dengue in this area already, so when is the government finally going to do something about it? And about all the other broken culverts in this village as well. There are many houses in Santa Familia where the water runs right into the homes because the front yards flood and the water stands there for long periods of time.

It is again time for action, not for more talk. When you have the first typhoid cases and a huge dengue outbreak, it will be too late!

***Whistling Ducks Farm, Fowlers Work Area, and residents of San Jorge/Santa Familia***

August 1, 2010, whilst doing watchman duties at Vega's mansion, he was attacked by three male persons of dark complexion.

In the report to the police, Santos informed that he was thrown to the floor of the verandah. His hands, feet and mouth were bound. Santos reported that one of the assailant dressed in a red shirt and armed with a hand gun remained with him whilst the other two went to the back of the house and opened the front door. Santos was reportedly dragged into the kitchen area.

Whilst inside the house, Santos informed that the other two assailants went upstairs whilst he was held at gun point. At around 1:30 am all three assailants left the house. He was left bound until he eventually managed to free himself after which he called the police.

In a report to the police, Eddy Vega informed that the sum of US\$3,300 and BZ\$46,510 was

# MINISTRY OF HEALTH

## Reports on activities for July

### Minister Marin assumes Presidency of COMISCA

The Honourable Minister of Health, Pablo Marin assumed the Presidency Pro Tempore of the Council of Ministers of Health of Central America (COMISCA) on July 9<sup>th</sup>, 2010 at an official handing over ceremony held at the headquarters of the Central American Integration System (SICA) Secretariat in San Salvador, El Salvador.

During his acceptance speech, Minister Marin commented that Belize will ensure continuity for this strong and dynamic organization and it will also focus during its term as President. Belize will now coordinate forums and meetings with relevant political and technical authorities of the Central American isthmus geared towards the achievements of goals and objectives of regional strategic plans.

### NDACC assists youths to develop skills in edutainment

The Ministry of Health along with the National Drug Abuse Control Council welcomed the return of a small contingent of young Belizeans who participated in a one week workshop in Antigua and Barbuda on

Edutainment. Edutainment, in its simplest form, is a communication strategy with a purposeful design of media that includes any form of entertainment that is educational. Mr. Tyrone Chimilio, Belize District Coordinator for NDACC headed the seven member delegation. They were trained in developing campaigns through skits, drama, dancing techniques and music composition.

Director for the National Drug Abuse Control Council, Mr. Esner Vellos embraced the new educational tools. He explained that the council will channel these methods and showcase the short story documentary that was produced to primary schools later in the year.

The National Drug Abuse Control Council has offices in every district except for Stann Creek.

### Establishment of additional dialysis services on target

As a consequence of the signing of a Memorandum of Understanding on May 3<sup>rd</sup>, 2010 for the establishment of affordable haemodialysis services at Karl Heusner Memorial Hospital and at La Loma Luz Adventist Hospital, a series of activities have been taking place that will eventually lead up to the official opening of both units in September.

The Project's task force welcomed the visit of Dr. Wayne Trebbin, President of WORTH and Nurse Carolyn McTeague, Vice President of WORTH for a second time to Belize last week for the purpose of conducting training for nurses in dialysis treatment. Dr. Trebbin commented to the task force that he was very impressed with the enthusiasm of the nurses in their anticipation for the start of affordable dialysis service for the larger population of Belize. Sixteen nurses and four bio-technicians received training.

The construction sites of both units are at a seventy-five percent satisfactory completion and the task force also saw the arrival of the haemodialysis machines and supplies earlier this week.

### Current Statistics on Dengue

The Ministry of Health is addressing the increased number of cases of dengue seen this year through media awareness ad campaigns, the issuance of press releases and appearances of officials on media outlets.

As of week 29, ending July 23<sup>rd</sup>, 2010, the Ministry of Health has received 410 reports of clinical cases of Classical Dengue Fever, 176 of which have been

laboratory confirmed at the Central Medical Laboratory and 50 diagnosed as Dengue Hemorrhagic Fever. The majority of these cases have been identified in the Cayo and Belize districts.

Dengue, also known as "Breakbone Fever", is an infectious disease that is transmitted by the bite of *Aedes aegypti* and *Aedes albopictus* mosquitos. If a person who was infected with Dengue in the past is infected a second time, the potential is increased for Dengue Hemorrhagic Fever or Dengue Shock Syndrome to develop, which is a more severe, life-threatening form of the disease.

The Ministry of Health encourages anyone who displays any of two or more combination of high fever, headache, pain behind the eyes, joint and muscle pain, and rash to go to the nearest health center or hospital.

### Mental Health Disaster Workshop

The Ministry of Health in collaboration with the Pan American Health Organization hosted a two day workshop on July 19<sup>th</sup> and 20<sup>th</sup> on mental health in emergencies as part of the implementation activities of the National Mental Health Disaster Preparedness and Response Plan. The workshop reviewed and formulated recommendations regarding the role of specialized Mental Health services and interventions at different levels of care in Mental Health in time of emergencies and disasters.

It also attempted to mitigate the psychological and social effects of a disaster in Belize. Strategies included developing awareness training for responders about disaster preparedness and response, developing risk profiles for subgroups of the larger population and facilitating community self care and social support. An official ceremony opened the workshop on the first day where the Disaster Plan document was launched.

## The Fake Zoo

One day an out of work giant is visiting the zoo and attempts to earn some money as a street performer.

However, as soon as he starts to draw a crowd, the zookeeper summons the giant to his office.

The zookeeper explains to the giant that the zoo's most popular attraction, a gorilla, has died suddenly.

The zoo keeper fears that attendance at the zoo will fall off and so he offers the giant a job to dress up as the gorilla until they can get another one. The giant accepts.

The next morning, before the crowd arrives, the giant puts on the gorilla suit and enters the cage. He discovers that it's a great job. He can sleep all he wants, play and make fun of people and he draws bigger crowds than he ever did.

However, eventually the crowds tire of him and he gets bored just swinging on tires. He begins to notice that the people are paying more attention to the lion in the cage next to his.

Not wanting to lose the

attention of his audience, he climbs to the top of his cage, crawls across a partition, and dangles from the top to the lion's cage. Of course, this makes the lion furious, but the crowd loves it.

At the end of the day the zookeeper comes and gives the giant a raise for being such a good attraction as a gorilla.

Well, this goes on for some time. The giant keeps taunting the lion, the crowds grow larger, and his salary keeps going up.

Then one terrible day when he is dangling over the furious lion, he slips and falls. The giant is terrified. The lion gathers itself and prepares to pounce. The giant so scared that he begins to run round and round the cage with the lion close behind.

Finally, the giant starts screaming and yelling, *"Help, Help me!"*, but the lion is quick and pounces. The giant soon finds himself flat on his back looking up at the angry lion and the lion says, *"Shut up you idiot! Do you want to get us both fired?"*

## Manuel's Measuring Monkey

Manuel walks into a bar with his pet monkey. He orders a drink and while he's drinking, the monkey starts jumping all over the place.

The monkey grabs some olives off the bar and swallows them, it grabs some peanuts and swallows them, then it jumps up on the pool table, grabs the white ball, sticks it in his mouth and swallows it.

The bartender screams at

Manuel, *"Did you see what your monkey just did?"*

Manuel says, *"No, what?"*

*"He just swallowed the cue ball off my pool table - whole!"* says the bartender.

*"Yeah, that doesn't surprise me,"* replies Manuel. *"He swallows everything in sight. I'll pay for the ball."*

Manuel finishes his drink, pays his bill and leaves.

Two weeks later Manuel is in the bar again, and he has his monkey with him. He orders a drink and the monkey starts running around the bar again.

While Manuel is drinking, the monkey finds a cherry on the bar. He grabs it, sticks it up his butt, pulls it out, and swallows it.

The bartender is disgusted. *"Did you see what your monkey did now?"*

*"Now what?"* asks Manuel. *"Well, he stuck a cherry up his butt, then pulled it out and swallowed it!"* says the barkeeper.

*"Yeah, that doesn't surprise me,"* replies Manuel. *"He still swallows everything in sight, but ever since he swallowed that damn cue ball now he measures everything first!"*

## **+ Handy Hints For Emergencies At Home +**

### **What to do BEFORE a Disaster**

**Brought to you by BELIZE RED CROSS +**

- Make sure that you know in advance the exact location of the nearest Official Emergency Shelter.
- Check before anything else whether there is a local Emergency Committee in your community. If not, you can advocate for the creation of it.
- Make sure you know the reliable information sources for disaster threat such as radio stations, national hurricane warning flag locations (*and meanings*), etc.

- In case they exist, be sure to practice the evacuation procedures before a true emergency occurs.
- Be aware of your community's warning system.
- Find out what the community's evacuation plan is from the local Emergency management agency. This should contain the safest routes to shelters.
- Make sure that you have several route planned, in case the first and/or second choices are flooded out.
- Consider that, if there is any person with disabilities in your family or community, you should take into account his/her/their needs (assistive devices, special medication, caregivers, etc.) in order to ensure their total inclusion in the preparedness plan.

Fearing for her life, the cashier handed over all the cash and phone cards. The attackers then fled the scene and disappeared into the darkness.

A subsequent inventory revealed that the items stolen included \$185 worth of BTL Digicell phone cards, \$195 worth of SMART phone cards, a Samsung cellular telephone used for TOP-UP services with \$800 worth of credit and the day’s sale amounting to approximately \$800 in cash.
