

BTB Introduces: Official protocols and guidelines for the Accommodation Sector

As Belize's tourism industry prepares to re-open, the health, safety, and well-being of the industry, its employees, the wider Belizean community, and our guests are more important than ever, as we mitigate the risk of Covid-19.

To address the new health and safety challenges and expectations presented by Covid-19, the Belize Tourism Board (BTB) is launching its **Gold Standard Recognition Program** for hotels alongside the country's national tourism guidelines. These new protocols are focused on enhanced hotel & restaurant cleaning practices, social interactions, workplace policies and standard operating procedures, while ensuring minimal impact on the guest experience.

Join us as we outline this 9-Point Program which seeks to enhance the tourism industry's health and safety standards, by adapting new behaviors and procedures to ensure both employees and travelers are confident in the cleanliness and safety of Belize's hotels, restaurants and other amenities.
