University Professor Freed Of Criminal Charge

SAN IGNACIO TOWN, Cayo, Thursday, March 26, 2009:

The charge of aggravated assault with intention to commit other crimes, hanging over his head for almost 18 months, was today withdrawn against Anthony Rosado, Belizean Math Professor at the University of Belize, Belmopan Campus.

Rosado is a former Inspector of Police, a former Analyst in the Ministry of Finance and a former Teacher at Sacred Heart College in San Ignacio. His ordeal began on October 3, 2007 when he stood accused by his niece of improper behavior for which he was arrested and charged.

At the time of the report, he was employed as a teacher at the University of Belize Math Professor, a former Inspector in the Ministry of Finance and a former Teacher at Sacred Heart College.

The case went through several changes as one of the defense’s major challenges was to get the first magistrate to recuse herself from the case as the defense contended that she was closely related to the complainant.

A second magistrate was brought in to deal with the case but again, at the request of the defense, quickly withdrew on the grounds that he was also related to the complainant although not as closely related as the first magistrate.

Eventually Magistrate Ed Usher was brought in to deal with the case and after two days of hearing, during the first week of February 2009, the case was wrapped up for the prosecution and the defense.

Rosado was then informed that the defense had no other alternative than to withdraw against the charge. Rosado was then free to proceed with his life.

True to his commitment, Magistrate Usher handed down his verdict on March 26 when he informed that the defense had successfully fulfilled its obligation of creating a reasonable doubt in the case and that on this basis he was left with no other alternative than to dismiss the charge against the accused. Rosado was then ordered to walk free of the charge.

Rosado who was defended by attorney’s Ellis Arnold and Linbert Willis, informed that he will now be relying on the advice of his lawyers on how best to proceed with civil action against Sacred Heart College for wrongful termination and for depriving him of his constitutional right to natural justice by not allowing him the opportunity to defend himself.

Suspected Guatemalan Bandits Re-emerging

SAN IGNACIO TOWN, Cayo, Thursday, 26 March 2009:

San Ignacio Police reports what they believe is a resurgence of criminal activities of western bandits along the border with Guatemala.

According to the police, at around 8:45 am on Thursday, March 26, Eric Tut, 24, Belizean Tour Guide of a Cahal Pech Area address in San Ignacio accompanied by two American tourists visited the San Ignacio police station and reported an encounter with five armed, masked robbers in the area of the El Pilar Archaeological Site near the village of Bullet Tree Falls.

Tut informed that he was on a guided tour with Robert Guy Washburn, 50, Engineer and his wife Laura Reiner, 52, Librarian both US Nationals from Massachusetts, when upon reaching about two miles from the El Pilar Archaeological Site he was forced by five armed, masked men to stop the vehicle he was driving. Upon complying with the order, Tut noted that the men, all of Hispanic decent, were dressed in dark clothes each with long black clothings covering their noses and mouths. Two of the men were reportedly armed with long guns, another two were in possession of short guns and the fifth brandished a machete.

Tut and the two tourists were ordered to hand over their property and in so doing they surrendered one black Cannon digital camera valued at $1,800, two gold rings valued at $1,300, two pairs of binoculars valued at $500, one cellular telephone valued at $250, one pocket knife valued $70, one men’s watch valued at $50, one Timex wrist watch valued at $40 and 220 Belize dollars in cash. All for a total value of 4,250 Belize dollars.

The Safety And Security Of Every Single Citizen Is Placed At Risk

While protecting the national economy from the global financial crisis is high on government’s agenda, the effects of the current wave of crime and violence should attract no less importance in the order of government’s priorities as there seems to be a diminishing degree of hope in terms of moving towards a solution in the immediate future while new facets of lawlessness seems to be opening with every passing week.

The situation has escalated to the point where this week, news emerged about a prominent Chinese businessman of a Constitution Drive, Belmopan address contracting the killing of another Chinese man from Orange Walk Town.

The situation is compounded when the investigation is revealing that a policeman was the front runner in the scheme and that he subcontracted the job to a former policeman.

The security of its citizen should be a primary responsibility of the national government and when agents of that government, who are paid by the very taxpaying citizens they are sworn to serve and protect, are engaged in this degree of lawlessness, then this should be cause for much concern by the government.

While other information on this latest incident is yet to be officially released, there are indications of several other alleged wrong doings in the mix. There is, for example, indications that the gun used to commit the murder is licensed to a Chinese brother-in-law of the prominent Belmopan Chinese businessman who ordered and paid the first $10,000 installment on the $25,000 hit job.

It is alleged however that when the incident occurred and the gun was found, a rookie police constable was ordered to record a statement from the brother-in-law and to back date it to give the impression that the gun was reported stolen two days before the murder in Orange Walk Town.

The information reaching us indicates that the rookie constable is the son of an Assistant Superintendent of Police who is stationed at Police Headquarters in Belmopan and that he might have hinted this discrepancy to his father.

Like other equally serious breeches of national security that have been allowed to go warm or maybe even cold, this latest incident should be kept burning until it reaches its natural conclusion. For example, we have not heard anything further on the case of the almost 200 passports that were stolen. It seems like the investigation has died a natural death.

The nation is yet to get an official update on the Mahogany Street grenade incident. Have the suspects been convicted? Are they still behind bars awaiting trial or, like in most cases, are they back on the streets of the city? We have not heard anything further on the investigation regarding the grenade that was launched into the large gathering during the 2008 carnival day parade.

How is the investigation proceeding in respect of the grenade attack on the Comptroller of Customs?

These are serious breeches of the security of a nation that should never be allowed to go cold as it will only serve to foster a greater and escalating degree of violence while the safety and security of every single citizen is placed at risk.
This past week Bowen & Bowen Limited issued a press release advising the general public and the business community in particular to be on the lookout for fraudulent payroll cheques purported to have been issued by the company.

Since the scam broke last week, San Ignacio police are today holding on to a total of 19 such cheques all honoured by a series of Chinese grocers and a Hindu merchant within the community.

All of the cheques in police possession are dated 13 March 2009 and are made out in the names of Denmark Murillo, Sylvin Bodden, Reknickle Hemmans or Kenneth Jones.

Of these 19 cheques, 11 are made out in the identical sum of $512.67 while the remaining 8 are for $489.23 for a total of $9,553.21.

BELIZE CITY, Leo Bradley Library, Princess Margaret Drive, Wednesday, March 25, 2009:

The 8th Annual Book Fair and Open Day was held today at the Leo Bradley Library in Belize City under theme “Dive into Knowledge, READ!”

The program started at 9:30 am with the singing of the National Anthem and a short prayer by Senior Library Assistant, Ms. Yvonne Bevans.

Mistress of Ceremony for the occasion was Ms. Joan “Ma Joan” Burrell.

The welcome address was delivered by Ms. Marlene Leslie, Vice Chairperson National Library Service Board of Directors, who took the opportunity to remind invited guests and participants in the reading competition that “Reading Maketh the full man” and that “every effort should be placed into reading which produces productive and educated Belizeans”.

The opening address was delivered by Ms. Deborah Sewell from the Belize Natural Energy Charitable Trust culminating with the launching of the Reading Is Essential Program by Mr. Gary Reneau deputizing for his sister, the founder of the program, who resides in New York.

The highlight of the event was the handing over of a set of African-American Culture and History encyclopedia - The Black Experience in the Americas – Second Edition, which was handed over to the library by the Attorney General and Minister of Foreign Affairs and Foreign Trade, the Hon. Wilfred “Sedi” Elrington.

Minister Elrington took the opportunity to likewise hand over two boxes of children’s books in Spanish, donated by the Mexican Ambassador to Belize. These books will be housed at the Samuel Haynes Institute located on Mahogany Street on the southside of Belize City.

The vote of thanks was delivered by Senior Library Assistant Mr. Raymond Bradley.

"EVOLUTION" Premieres At The Princess Cinema

BY: Berne Velasquez

(Chairperson) Life After Deportation Film And Records

On Saturday, March 28th The documentary, “EVOLUTION” premieres on Saturday, March 28, inside Cinema one at the Princess Hotel & Casino. This star studded red carpet premier is a first of its kind event ever to hit Belize.

“Evolution” is a documentary that tells the story of a young man, journey that brought him to where he is today. It’s Berne’s journey of trials, tribulations, failures and accomplishments.

As Berne enlightens us on his experiences and sentiments “I smiled to myself as I felt the change going from a human being to a human becoming. As I went through my trials and tribulations, my struggles made me stronger and wiser; I mastered the art of embracing my challenges and turning them into opportunities. Now that I have experienced life and I am stronger and wiser, I have learned that he is not poor who has little only he that desires much...And true security lies not in the things one has but in the things that one can do without. I promise myself to use my music to teach the ignorant, Calm the angry, Uplift the despondent, Cheer the unhappy, Praise the worthy and to say the words I LOVE YOU. Universal law requires that I move into a better future. I do not want to cope with the inadequacies of life and become comfortable, now that I understand that one can learn to cope and become comfortable in the most horrific situations. Today I hold my head up high as I am proud of who I have become. I am happy with who I am. I have evolved in the EVOLUTION.”

To attend this event or for more information please feel fee to call 610- 2376.

Place: Princess Hotel & Casino Cinema One.

Date: March 28, 2009.

Time: 3:00 pm sharp. This is one event you don’t want to miss.

Dear Editor;

I am greatly distressed by the strip-mining for sand and gravel that is occurring on properties on Savannah Road in Cayo. The noise and dust from this operation are present from before sunrise to well after sunset, seven days a week.

Don’t the residents and guests in the area have the right to quiet enjoyment of their property? I assume what is taking place is legal, but that doesn’t mean it is right.

Is the operator required to file an EIR, an Environmental Impact Report? If so, is it available to the public? If not, why not?

Prior activity has left huge pits in the ground. I can tell you from previous experience living in flood plains that these pits could alter the course of the river during the next rainy season, and destroy the roadway and adjacent properties.

Have other property owners been told of this potential consequence that could result from someone extracting a few dollars worth of sand and gravel? Are there any aerial photographs of this area?

I had heard that Belize was trying to bring itself into the 21st Century. This will not be accomplished using 19th century ideas.

I assume the sand and gravel are going to the various dam-building projects. Dams destroy wildlife habitat, kill fish, silt up immediately after they open, waste water through evaporation, and lose over half the electricity generated during transmission.

Most developed nations are developing solar and wind technologies as fast as they can. Perhaps the sand/gravel will be used to make cement blocks for building houses. Why build cement houses in a forest? Every family in Belize could live in a nice log and bamboo house. Post-and-beam log construction is cheaper, stronger, and more esthetically pleasing than another gray square box.

Please, Belize, do not repeat the mistakes of the “developed” nations.

I would appreciate a reply on this matter.

John Smith, (Not my real name)
Cayo.

ED NOTE: Well, since you requested it, here goes your reply “John Smith”.

The opening paragraphs of your letter is a matter that is cause for much concern.

Frankly, by now one would have expected, at the very least, some expression of concern on the part of owners of land adjacent to the site of this mega sand mining operation especially given that one such landowner is the influential Musa family.

Your letter gets very sticky however, when you state: “Why build cement houses in a forest? Every family in Belize could live in a nice log and bamboo house”. You come across as a citizen of one of those so called “First World Countries” who would have preferred to see Belizeans living like bush people in those remote areas of the Amazon.

So while you are at it, why not suggest that we live in trees and wear leaf garments so that you can make more money by bring more tourists to see how we live. And when you have made enough money, you retire to your luxurious lifestyle from whence you came while we remain in our stick houses and poor living conditions.

You remind me very much of that man who once came to the office expressing dismay at the recently improved market facility on the banks of the Macal River in San Ignacio Town.

He was saying that this is so unlike Belizean culture thereby insinuating that we should continue dabbling in the mud (like pigs) on market days to buy our fruits and vegetables.

Well there is no need for me to tell you how fast he was asked to leave the office.

My Experience At The San Ignacio Police Station

Dear Editor;

I recently have had the opportunity of visiting the “new” San Ignacio Police Department.

I needed some information on my residency status and asked a special constable if she could help me. She listened to my

THE NUTTY ENCOUNTER

A doctor from the Rockview Hospital for mentally challenged persons took some of his patients to the Central American Baseball Tournament at the Rogers Stadium in Belize City.

For weeks in advance, he coached his patients to respond to his commands.

When the day of the game arrived, everything seemed to be going well.

As the national anthem started, the doctor yelled, “Up nuts!”

And the inmates complied by standing up.

After the anthem he yelled, “Down nuts!” And they all sat down.

When the home team scored a home run he yelled, “Cheer nuts!” And they all broke into loud applauses and cheers.

Thinking things were going very well, the doctor decided to go get a quick beer and a hot dog, leaving his assistant in charge.

When he returned there was a riot in progress. Finding his assistant in the uproar, he asked “What happened?”

The assistant replied, “Well...everything was going just fine until this guy walked by and yelled, “PEANUTS!”

OBEYING ROAD SIGNS

Simple Simon was making his first road trip from Los Angeles, California to Belize. Before leaving Los Angeles his brother gave him a final word of advice “Everything will be just fine all you have to do is just pay keen attention and obey all road signs along the way”.

He had only driven the first 30 miles out of Los Angeles when he saw a road sign that read “Clean Restrooms Ahead.”

Two months later he arrived in Belize exhausted, having used up 186 bottles of Clorox, 367 rolls of paper towels, and three cases of toilet-bowl cleaner.

“I’ll never do that trip again” he told his friends as he crossed into Chetumal border “Total restrooms cleaned: 453”.

European Union Officials Tour Southern Schools

BELIZE CITY, Monday, March 23, 2009:

Representatives from the European Union Banana Support Programme Project Implementation Unit recently completed a four-day visit to secondary and tertiary level education institutions in the Toledo and Stann Creek Districts.

The EU Banana Support Programme Project Implementation Unit is based in Independence Village and the purpose of the schools tour was to inform the students of the work of the European Union in southern Belize through its Banana Support Programme.

This EU Programme has been assisting the Belize Banana Industry for the past ten years and has allocated over $70 million to various activities such as improved drainage and irrigation systems.

In his presentation to the students, Dale Young, Assistant Director of the Project Implementation Unit, explained that the EU Banana Support Programme also assisted banana growers in land preparation, cold storage facilities, disease management, use of fertilizers, marketing, environmental monitoring, and nematode control.

The EU Programme also donated five vehicles to the Banana Growers Association.

Dale Young also described the Rural Development Component of the EU Banana Support Programme, which has become a central feature of the project. Under this Component $13 million has been committed to social infrastructure projects such as electrification, water systems, health centres and education.

In addition, $1.5 million has been invested in micro-credit through the Toledo Teachers Credit Union.

Agronomist Lemuel Palacio of the EU Project Implementation Unit, in his presentation described the EU’s Rehabilitation Programme for the disabled.

**One Day In Paris On Banana Business**

Belize City, Monday, March 23, 2009:

A media release from the European Union Banana Support Programme Project Implementation Unit today informs that Mrs. Isabelle Gayot, Director of the Project Implementation Unit, represented Belizean banana interests at a one-day Banana Workshop in Paris, France.

The workshop was organized by the Science Po University of Paris, in collaboration with the European Commission.

Government, industry, the European Union and representatives of supporting partners discussed the future of the worldwide banana trade. Although the purpose of the meeting was not to debate the tariff reduction that applies to Most Favored Nations, including Belize, to export to the European market, it has been confirmed that any reduction would have a highly negative impact on the competitiveness and sustainability of the banana industry and on thousands of people who live on banana incomes all over the world, mostly in poor developing areas.

In Belize this would affect over twenty-seven thousand people. It was concluded that additional adjustment measures will have to be implemented to alleviate this negative impact and to maintain competitiveness.

It was made clear at the workshop that any other substitution product could not replace such a high labour intensive activity as the banana industry.

Given the vulnerability of the countries which are highly dependent on the banana industry as a major source of employment, its impact on maintaining a fixed exchange rate, and a major source of exports with limited markets and limited number of operators, it was agreed that during the next few years, the European Union may give sectoral budgetary support to ACP countries on the basis of a sound sectorial strategy and clear objectives.

The EU also encouraged regional cooperation and South-South solidarity between the ACP countries and the Most Favored Nations of this region, as soon as the tariff protection issue is resolved.

A multi-stakeholder conference is expected to be held in December 2009 in Europe, organized by Banana Link, to request and heard what I needed. She went to get the information from one of the regular officers. She came back and indicated the office to which I should go; but she said that everyone was at a meeting at that moment. She assured me that if I came back in an hour, there would be someone there to help me.

Coming back later, she noticed me, she apologized and told me that the meeting was still on. Leaving, I felt that I was heard and that the energy of the building was lighter, more friendly to the average citizen.

Compare that with my experience when I started the process and had to deal with the female revenue officer about my police report. She was disinterested, not engaged, and could care less that my report was late. It actually wasn't. She just couldn't find it.

Kudos to Inspector Dinsdale Thompson who I believe initiated the Special Constable program and to all the citizens who give of their time to serve their community in a variety of ways. Keep up the good work.

Also making presentations to the Belize Banana interests will need to be represented at this meeting to help maintain and rehabilitate the Banana Industry as a powerful social and economic development tool for Belize.

This week we’ll take a look at the game of chess in Belize’s primary school system in Belize.

Over the last few weeks and continuing for another two weeks, each District has been holding District Finals to find 16 participants for the upcoming National Chess Olympiad which will be held in Belmopan on the 25th April.

The National Final is organized by the Belize National Youth Chess Foundation (belizechess.org). The foundation also sponsors the District Finals. This year there will be a team of four high school students as well as the under 15 age students from each district.

BELIZE CITY, Wednesday, March 25, 2009: BY: Adele Ramos

One of Belize’s most promising women writers, Ivory Kelly - poet, storyteller, and teacher - will launch her debut anthology, “Point of Order”: Poetry & Prose, on Saturday, March 28, 2009, on the second floor of the Bliss Center for the Performing Arts, inside the Rotunda.

The 117-page book features 31 diverse, reality poems under captions such as “Time and the Sittee River” - “If I had to choose between smart and pretty,” - “Fences,” and “Civil Disobedience.”

“Point of Order” climaxes with 4 culturally rich and entertaining short stories, including “If yu Kyaa Kech Harry...” and “The Real Sin.”

In the Foreword to Kelly’s new book, Belizean author, Zee Edgell, writes: “Point of Order, a collection of poetry and prose by Ivory Kelly, is a very welcome addition to the growing body of Belizean literature. These poems and stories show us aspects of everyday life in Belize City and in rural areas. Kelly’s work reminds us that in small countries and communities our private and public lives are often intertwined.”

Jose Sanchez, journalist and poet, describes Kelly in the book’s introduction as, “...a Belizean writer whose poetry and prose echo the voices of her community, from folks in Creole villages to the marginalized urban youth to the modern Belizean woman.”

The final in each District follows the same 50 minutes five rounds process culminating in the selection of the top students.

In some districts there are a much as 60 students taking part in the final. This number does not generally include all those who have started playing this year. There will be even more tournaments next year as the federation will be catering for more students who have since grasped the basic concept of the game.

The Olympiad will also be five rounds but each round will be of 60 minutes duration giving each player a maximum of 30 minutes for the game.

Trophies will be awarded for the top three students in each age group, 8 and under, 9 and 10 years, 11 and 12 years, 13 and 14 years and 15 years and over which due to the age range ill include high school students.

After each district final and National final all the results are entered into a computer and the ‘swiss’ program will assign a rating to the players, this will enable next year players to qualify in sections according to their rating and ability rather than age. Therefore, a very good 10 year old may have a rating similar to a 13 year old and will play in the same category. This is fairer than just going by age because some 10 year olds have been playing for longer than 14 year olds.

The Belize Chess Federation (an independent body) will also introduce a rating system at a national tournament on May 1st in Belmopan. There will be three sections, adult open, high school and adult beginners for those playing less than one year. More information on the game of chess in Belize can be obtained by requesting it from lightningcoombs@yahoo.com

Autographed copies of the book will be available for a special promotional price of $20 at Saturday night’s launch. The launch itself is free and open to the public.

The book is published by Ramos Publishing, and will be available at outlets around the country. For more information contact: Ivory Kelly at telephone number: 664-5555 or Adele Ramos #: 663-3174.

dollars. After relieving them of their property the armed bandits reportedly disappeared into nearby bushes. A team of Belize Defence Force soldiers and policemen rushed to the scene where, after several hours of combing the area, they came up empty handed.

While the police and soldiers were busy searching the area near El Pilar, reports surfaced of another armed robbery in the Calla Creek Area located further south along the border. This second incident is reported to have occurred shortly after 3:00 pm. Relaying on the description of the suspects in this second incident, police strongly suspect that it was the same five persons who pulled off the earlier robbery near El Pilar. In this second incident, a Belizean woman who was riding in a San Ignacio taxi cab is reported to have been relieved of almost two thousand Belize dollars in cash. San Ignacio police inform that they are working closely with their counterpart in neighbouring Melchor de Mencos, Guatemala in a joint effort to capturing those responsible for these latest armed robberies.
