## REEF

The azure waters offer a truly remarkable experience for the first-time snorkeler to the avid scuba diver. The Belize Barrier Reef stretches for 185 miles along the length of the country of Belize. The beauty and value of this natural wonder is recognized locally and internationally with seven marine reserves in World Heritage Status. Palm studded islands are home to exotic birds and other wildlife, while beneath the waves, varied coral formations are teeming with colourful fish and stunning marine life. Snorkeling will provide a comfortable view from atop the gentle waves. A discover scuba course will give you a glimpse into the vibrant world underwater. Getting final Open Water certification in the tropics is infinitely more satisfying when done in crystal clear waters in the mid 80°F and with visibility averaging 60 to 200 ft. For the diving enthusiast, no dive is like the other. Dive within coral gardens, amongst the canyons of the spur and the grove formations on the drop off, or check out the stalactites at 150 ft into the collapsed cave at the Great Blue Hole. With so much to choose from, it is no wonder that snorkelers, scuba divers, sailors, sports fishermen and marine biologists have come to Belize and return regularly.

# THAN A VACATION

## ROMANCE

Belize combines the perfect elements to create a romantic getaway or the weddings and honeymoon of your dreams. Whether you choose an extravagant gala or a small personal affair; an exciting adventure for two or a tranquil and intimate honeymoon, the options are limited only by your imagination. Start your life on a greener path, with a jungle themed wedding; coconut trees lining the shore, palm leaves rustling in the gentle Caribbean breeze and the sand between your toes are part and parcel of a romantic Belize beach rendezvous.

Surrounded by towering temples, the spirits of Maya Gods and the harmony of a solitary Maya harp, the elegant setting of a Maya site will delight your senses. A traditional affair in a local church adds an authentic Caribbean flair as choirs and the pastor celebrate this new beginning. When it comes to romance – whether you are planning a Belize wedding, looking for a tropical honeymoon or celebrating a special anniversary or just ready for an intimate tropical getaway, many hotels offer wedding and romance packages with all the local arrangements and would be delighted to help you plan your Belize celebration.

This Belizean landmark was built in 1927 by talented local craftsmen and still retains its beauty, grace and charm. Now, this magnificent four-story colonial style residence is probably the largest classic wooden home still in existence in Belize. Originally built as a family home, this wonderful structure still provides the warmth and comfort reminiscent of the early colonial times of Belize. Spacious verandahs in front of the house allow you to relax and let go amidst the soothing embrace of the Caribbean breezes.

Only 100 meters from the Caribbean Sea, 12 miles from largest barrier reef in the Western Hemisphere, 25 miles from the sites of the Mayan Civilization, and a 10 minute walk from the city center (directly across the street from the Radisson Hotel). Our colonial heritage and ambience are faithfully preserved in all of our sixteen guestrooms. Each is individually color coordinated with a host of tasteful and comfortable appointments. The look and feel of yesterday with today's modern conveniences makes The Great House Belize's most desirable "outpost" away from home. From polished pine floor to fresh fruit on arrival, our guestrooms and our staff let you know you made the right choice.

Additional Amenities and Services: Free WiFi, Complimentary Coffee, Tea, Bottle Water, Crackers, Bananas, and Light Continental Breakfast, Private Bath, Hair Dryer, Mini Refrigerator, Direct Telephone, Air Condition, Coffee Maker, Desk, Alarm Clock, Iron Board, Safe.

## BELIZE CITY AND NORTHERN BELIZE

THE SWING BRIDGE, BELIZE CITY

## DID YOU KNOW?

The Belize Barrier Reef is the longest barrier reef in the Western Hemisphere and the second longest in the world.

## ISLAND & CAYES

Over 200 white sand islands, locally known as “Cayes” (pronounced “keys”) dot the turquoise waters the entire length of Belize’s coast - inside the reef, on the reef, or on an atoll outside the magnificent Belize Barrier Reef. The larger islands in the North support charming towns and villages while elsewhere on the 185-mile barrier reef, smaller private islands provide exclusive getaways.

### AMBERGRIS CAYE

Ambergris Caye, the most northerly and largest of islands off the coast of Belize is a base for world-class diving and snorkeling just offshore. Hol Chan Marine Reserve is home to large schools of colorful fish and its clear, shallow waters and prevailing winds are ideal for fishing, windsurfing, sailing and kite surfing. Hotels, condominiums and vacation rentals in San Pedro Town and along the water’s edge of the whole island offer an eclectic choice of accommodations that are complemented by sophisticated international cuisine in beach side restaurants and local cafes serving traditional Belizean Food. The streets of San Pedro bustle with local artists and craftsmen that contribute to the captivating atmosphere.

### CAYE CAULKER

The epitome of the “laid back island” lifestyle, Caye Caulker is located 21 miles Northeast of Belize City and is the second largest inhabited island in Belize. “Front Street” is lined with brightly colored wooden houses interspersed with shops, restaurants and small hotels. Friendly islanders will make you feel at home.

Ecotourism adventures abound in Cayo, the largest district in Belize, which is the gateway into Belize from Guatemala and also home to the capital city of Belmopan. As astonishing 880,000 acres of protected land in the form of nature reserves and national parks is an unsurpassed combination with Belize's largest Maya sites and Central America's largest cave system.

A range of luxurious jungle lodges to the local bed and breakfasts provide a range of options from which to base explorations.
